ED 482 947 TM 035 347

TITLE	Common Core of Data (CCD): School Years 1996-1997 through 2000-2001. [CD-ROM].
INSTITUTION	National Center for Education Statistics (ED), Washington, DC.
REPORT NO	NCES-2003-410
PUB DATE	2003-00-00
NOTE	0p.; For the 1996-1997 through 1999-2000 data, see ED 467 581.
AVAILABLE FROM	ED Pubs, P.O. Box 1398, Jessup, MD 20794-1398. Tel: 877-433-7827 (Toll Free).
PUB TYPE	Non-Print Media (100) -- Numerical/Quantitative Data (110)
EDRS PRICE	Document Not Available From EDRS.
DESCRIPTORS	CD ROMs; Databases; Demography; Educational Finance; Educational Trends; *Elementary Schools; Elementary Secondary Education; *School Districts; *Secondary Schools
IDENTIFIERS	*Common Core of Data Program; Data Files; Machine Readable Data

ABSTRACT

The Common Core of Data (CCD) is NCES's primary database on elementary and secondary public education in the United States. CCD is a comprehensive, annual, national statistical database of all elementary and secondary schools and school districts, which contains data that are comparable across all states. The 50 states and the District of Columbia are included in the collection, as well as the outlying territories under U.S. jurisdiction, Department of Defense dependents' schools, and Bureau of Indian Affairs schools. This CD-ROM disc contains portions of 5 years of CCD data, beginning with school year 1996-1997 through 2000-2001 (for Schools, last 4 years; for Agencies, all 5 years; and for States, last 4 years). This disc contains nearly 380,000 School records, nearly 84,000 Agency records, and 234 State-level records. Agency finance data for fiscal years 1997, 1998, 1999, and 2000 have been merged with the appropriate Agency nonfiscal records. Some of the agency and demographic data were obtained from the 1990 Decennial Census and F-33 surveys conducted by the United States Bureau of the Census. State-level nonfiscal and fiscal data have been merged into a single file. State-level fiscal data are available for fiscal years 1998, 1999, and 2000 only. (Author)
